

SITE UPDATE | SEPTEMBER 2024

We are pleased to issue our September 2024 newsletter for Beech Tree Place, Sutton.

It is with great satisfaction that we can confirm that the construction of this project is continuing at the intended pace and that a summary of the progression, key points of progress and upcoming works are outlined as per the below.

Block A roof slab has had the concrete poured and the parapet walls on the roof are currently in the process of being formed.

Block D third floor had concrete poured in August with the fourth floor slab due to be poured imminently. Level five is scheduled to be poured this month.

Excavation works for the foundations of block B are in progress with the foundations due to have concrete poured this month, this will enable works to the structure to commence.

Block C excavation works will continue over the next few weeks to allow pouring of concrete foundations.

LOOKING AHEAD

Over the coming month we will be commencing brickwork to blocks A and D.

Block B foundations will be poured towards the end of September along and construction of our electrical substation will begin.

As in all construction projects, there are times when a particular operation of work is dusty, noisy and disruptive, we will use our best endeavours to keep this to minimum.

This project has been registered with the Considerate Constructors Scheme. Should you have any concerns please contact the team on the adjacent page.

Bugler Developments has been building high quality homes since 1982. We are a family-owned, award winning contractor, working on behalf of local authorities and housing associations across London and the South East of England.

With our understanding and wealth of experience, we offer an integrated approach to the delivery of residential and mixed-use developments.

Giving back is also a key facet of what we do, and through the Bugler Foundation we have supported many worthwhile causes - from mental health to grassroots sport and local initiatives.

Social Value has always been important. We recognise that there is a duty to us as housebuilders to provide a positive legacy to the communities in which we work, both while we are on the site and after, and this is something our whole team buys into.
